health-services@neiu.edu

Student Health Services (<https://www.neiu.edu/university-life/student-health-services/>) offers routine physical exams, assessment and treatment of minor illnesses and injuries, health screening tests, health counseling and well-woman care services, including birth control. Health promotion and wellness events on all campuses are sponsored and supported by Student Health Services.

In the case of life-threatening medical emergencies, Campus Police should be immediately contacted at extension 5511.

Student Immunization Policy

The University requires all students enrolled in 6 or more credit hours to submit personal immunization records to Student Health Services to be in compliance with the Student Immunization Policy (https://www.neiu.edu/sites/neiu.edu/files/documents/ktvoigt/Pol_S1.4_Student_Immunization_and_Screening_FINAL_0.pdf). More information is available at www.neiu.edu/healthservices (<http://www.neiu.edu/healthservices/>).

Student Health Insurance

Student health insurance is not required and there is no University health insurance fee for students. The University no longer offers any student health insurance plans. Students interested in purchasing health insurance may qualify for health insurance through the State of Illinois official ACA health marketplace. Visit <https://getcovered.illinois.gov> for more information. Individual health insurance plans are also available for purchase through most private health insurance companies.
