

School Health Graduate Certificate

The school health graduate certificate is designed to meet the needs of professionals who work in a school setting or with school-related partners. Through applied practice, students are engaged in learning best practices in curriculum development; selection and design of assessments, skills-based teaching strategies, program planning and evaluation, and advocacy while also building foundational knowledge in health content areas. Additionally, the certificate includes coursework that meets Illinois requirements for certified teachers seeking a cross-endorsement in health education.

Applicants can find University Graduate Admissions requirements here (<http://catalog.neiu.edu/admissions/graduate-students/>) in the Academic Catalog. Additional application information can be found on the Admissions website (<https://admissions.neiu.edu/admission-requirements/>). Program-specific admissions information, including when the program accepts applications for admission, can be found here (<http://catalog.neiu.edu/education/health-Physical-Education-Recreation-Athletics/graduate-certificate-public-health/>).
