Finance and Administration

Beni Ortiz, Vice President for Finance and Administration

The Division provides strategic direction and leadership for campus financial and administrative services that support the daily operations of the University. The Division is responsible for supporting the executive team and other stakeholders with key financial and operational information and driving a culture of innovation in managing NEIU's business operations. Finance and Administration provides service to the campus community in all aspects of the University's financial affairs, including financial planning, policy and analysis, financial records and reporting, budget development, cash management, risk management, management of the external audit process, and the development and implementation of a comprehensive technology plan. Areas within the Division of Finance and Administration include University Budgets, Controller’s Office, Facilities Management, Procurement, Risk Management, Auxiliary Services, Human Resources, Student Payment Services, and University Technology Services.
