

Student Housing and Residence Life

Dr. Brandon Johnson, Director

Housing and Residence Life (<https://www.neiu.edu/university-life/housing-residence-life/>)

Living on campus is more than a place to stay, it is a place to belong. Our residential community is designed to support the academic success, personal growth, and overall well-being of our students. Through living at The Nest, intentional engagement opportunities, and dedicated professional staff, we strive to create an environment where students feel seen, supported, and empowered.

Housing & Residence Life is committed to fostering inclusive communities rooted in respect, accountability, and care. We believe that when students live in environments that promote connection and support, they are better positioned to thrive in the classroom and beyond.

Our team is here to guide, support, and partner with students throughout their residential experiences. From move-in to graduation, we are committed to helping students build community, develop independence, and make the most of your time at NEIU.
